Professional profile

Web developer versed in all phases of advanced web development. Knowledgeable in user interface, testing and debugging processes. Proficient in various technologies such as MongoDB, ExpressJs, ReactJs, Node, SQL and Typescript. Able to effectively self-manage during independent projects, as well as collaborate in a team.

Projects

Cara, freelance, Buenos Aires

DECEMBER 2022 - PRESENT

- I kept a clean and organized work routine to improve productivity.
- I performed the project under the MERN stack, integrating Redux, Stripe and JWT.
- Managed the code for reuse, facilitating the production of this and future projects.

BuddyNet, freelance, Buenos Aires

DECEMBER 2022 - PRESENT

- I initiated the development strategies of a social network, prioritizing the customer experience at all times. Ensuring easy interaction and communication with their environment.
- I developed the project under the MERN stack, integrating Redux, MUI, Multer and JWT.
- I amplified the production efficiency by incorporating previous code and creating new reusable components.

AI Image Generator, freelance, Buenos Aires

DECEMBER 2022 - PRESENT

- I connected my social network to DALL-E, providing the user with a convenient and accurate way to recreate the visualizations in his mind and share them with the community.
- I realized the project under the MEVN stack (MongoDB, Express.js, Vite.js, Node.js), integrating Tailwind, Multer and OpenAI.
